

WARNING

Cases of meat contamination have
been reported in this region.

**Steroids can sometimes be used in the local farming process,
and, if consumed, may be present in your Anti-Doping sample.**

Take the following steps to reduce your risk of an Anti-Doping Rule Violation:

1. Seek alternative sources of protein, if possible
2. If consuming meat, try and confirm where it comes from
(US-sourced meat is generally safer)
3. Eat with other players, order similar meals
4. Keep receipts and photos from all meals during your stay
